Rifat Aluminum Packaging Ltd.

Company Brief:

Rifat Aluminum Packaging Ltd. was founded in 2013, has taken appropriate measure with an innovative approach to meet the current need of customers to match the challenges of industrial demand of 21st century in global context. Among those was constructed the Alu Alu Bottom Foil Plant at Gazipur Industrial Zone. This is an international standard manufacturing plant for flexible packaging industry in Bangladesh.

Rifat Aluminum Packaging Ltd. was established in recognition to the general need of the growing pharmaceutical sector in Bangladesh. A major portion of Alu Alu Bottom foils were imported from abroad to meet the primary packaging requirements of pharmaceuticals industry three, four years ago. This is where Rifat Aluminum has proudly been furnishing the packaging needs for pharmaceutical industry since 2014. We have recently captured 60% market share of Alu Alu Bottom foil in Bangladesh beating with a hard competition against well reputed international sources. Our main strengths are high-tech machineries, super skilled men-power, products with the reliable quality and stable performance, competitive price and thoughtful after sale-service.

RAPL is favored by all domestic customers because of our company places too much stress on quality and service all the time. We make it our business to create value for customer and hold the belief that mutual trust leads win-win and offer service to customers. We will go ahead towards the purpose to build a big-league enterprise on the basis of our superb technique, high quality, high reputation and thoughtful service with all well-known customers. We are now able to meet quality & quantitative requirements of all pharmaceuticals companies in Bangladesh with current production capacity 5000 Tons, who no longer depend upon imports. The company is located at Gazipur Industrial Zone (Baniarchala, Bhabanipur, Joydevpur, Gazipur-1740, Bangladesh.)
